

### **MVS Past Performance**

Since 1997 MVS Inc. has been successfully implementing a wide variety of IT Services / management projects to various agencies within the District of Columbia including the DC Public Schools.

Mr. Vipin Desai, President/CEO, has more than 30 years experience in the whole spectrum of IT infrastructure on a variety of platforms. He has extensive expertise in the design, development, implementation and maintenance of IT applications using state-of-the-art technologies and procedures in a client/server as well as internet/intranet/web environment.

Mr. Desai's comprehensive experience working in an information technology environment, combined with his experience working in the field of health, human services and other school education programs with the Government on numerous efforts will prove to be a valuable asset to this project.
