## **MVS Facilitates Integrated Learning and Limitless Creativity in DC Classrooms through SMART Boards**

**Washington, DC, November 2010** – MVS, Inc. has consulted with numerous District of Columbia Public Schools to develop cutting-edge technological solutions for its classrooms, specifically by implementing SMART® Boards and other SMART® technology products in DC public and charter schools.

MVS, a leading District authorized SMART® reseller, provides exceptional service for the District's schools. With its certified SMART® installer and technician on staff, MVS helps educators develop the best and most cost-effective SMART® and audio/visual solutions to meet each school's technology needs. Furthermore, with the recent addition of a former Fairfax, Virginia teacher to MVS's team, MVS has signaled a greater commitment to serve DC schools. As a former educator, our Educational Technology consultant is committed to sharing the benefits of SMART® and other technologies with like-minded teachers in DC. MVS strongly believes technology can assist in positively revolutionizing the teaching and learning experience in the District. To date, MVS has updated over 75 classrooms with SMART® Boards at over twenty different schools in the District, and MVS has trained over 100 educators on how to use SMART® technologies.

SMART® Technologies is the leading provider of interactive whiteboard systems that have changed the way people learn. The SMART® Board is a sleek, easy-to-use digital whiteboard that infuses limitless creativity with exceptional organization to better present and communicate information.

Making Your Vision of Technology Solutions A Reality. MVS, Inc. is an 8(a) & HUBZone minority-owned Information Technology company headquartered in Washington, DC. MVS is a leading small business provider of hardware, software and consultant services to Federal, State and Local Government Agencies. MVS's team has over 60 years of combined experience in Information Technology Services, and its mission is to provide its government clients with leading-edge solutions that encompass the latest industry technologies at the best value.
